

# Colder

## Brainstorm

Come, oh, come early  
I'm afraid of getting colder, colder  
Keep the night burning  
To shine our love always, always Pictures on the wall  
Her pictures on my wall  
She's so beautiful, so beautiful Climbing up to fall  
I'm climbing up to fall  
I'm still staying cool i'm staying cool One day I'll find you just to prove that I'm real  
Out of love and hate, of love and hate  
And losing ties with common sense, baby, I know  
I will make a bridge to place where my mind goes  
Come, oh, come early  
I'm afraid of getting colder, colder  
Keep the night burning  
To shine our love always, always Thousands of the walls  
8 billions on the walls  
She's so beautiful, so beautiful Digi-dogs around  
Her digi-dogs around  
I'm still staying cool, well I'm staying cool I'm losing all I have and I ever will  
Out of love and hate, out love and hate  
I'm losing daydreams and good night sleep  
Oh, baby, our passions are hiding deep  
Come, oh, come early  
I'm afraid of getting colder, colder  
Keep the night burning  
To shine our love always, always Always, always.
