

Making Me

Crowboy Artist

I let rhymes collide. yeah, minds on the prize.
the pain inside, yeah, it made me realize.
I became Artistic, I stayed committed.
People judge quick, but I wont get affected.
nothing went well, at the start it was hard.
for music i fell, thats when i put in my heart.
I went to college, that's when i found my passion
i learnt knowledge, when I started rappin.
Started at level one, yeah, my journey commence
from the bottom i sprung, lyrics i dispence,
music helps the pain, it helps it mend.
got alot to gain, a fan base that needs to extend.
so this is my victory, its only the start of me, this is my destiny,
now im making me.now im making me.
so this is my victory, its only the start of me,
this is my destiny, now im making me.now im making me.
what is the result? if my choice diversified.
would i be different, if i reversed.
nothing turns out, the way we expect.
never have a doubt, coz no ones perfect.
be unique, dont make the same sorta tune.
dont be weak, im immune.
its real hard, when great things end.
let the bad discard, let your life blend.
always try my best, make your reality.
follow success, yeah, i'll make my fantasy.
when made a decision, you can't go back.
So make sure you listen and dont slack.
so this is my victory, its only the start of me,
this is my destiny, now im making me.now im making me.
so this is my victory, its only the start of me,
this is my destiny, now im making me.now im making me.
I got no help when i started, now i help them.
haters were cold hearted, now they're my friend
a crow means death but I'll analyze as change.
I'll rap till my last breathe, I'll never be the same.
imagine an ending, for a new beginning.
im not pretending, want to be achieving.
my dream is pending, not feeling reality.

I'll never be gone along with my clarity.
me making music, re-invented myself.
got ambition to do this, let it speak for itself.
so many people that, want to meet me,
for me to rap for them, to sign there cd.
i follow my dream, I'll do it for my family.
I promote to be seen, i want to live happily.
so this is my victory, its only the start of me, this is my destiny,
now im making me.now im making me.
so this is my victory, its only the start of me,
this is my destiny, now im making me.now im making me.
