

Green Chevrolet

Speakeasy

think of the road green chevrolet
toke a wrong turn
determined our day
i'm the mirage
that knows that i'm there
the day i forgot, the moment i cared
i've got two eyes focused on making sure
you've got a way to walk until other days
you are the stiffest of drinks
and as this goes down, its making me think

how long
did this
how long did this go on
are you taking the wheel
are you trying to break me down
green chevrolet

tougher than nails
sweeter than wine
i know that you loved me
you know that you tried
to be the one that pulls us all trough
i pray that you loved me the way that you do
i've got two eyes focused on making sure
you've got a way to walk until other days

how long
did this
how long did this go on
are you taking the wheel
are you trying to break me down
green chevrolet
