

Fuel My Fire

Melanie Amaro

[Verse 1]

Sticks and stones built this house
These walls are getting so strong
Can't run me down, running 'round town
Singing that same old tired ass song All the shots you throw, helped to pave my road

I refuse to buy your jewels
Knowing your gold is made for fools [Hook]
Won't let y'all get into me (I'll never let my guard down)
Forcing your negative energies (can't even let them get close)
I know you're wishing you see the enemy (I won't surrender)

I got a love for my enemies (fuel my fire) [Chorus]

Go 'head and pour the gasoline on my name

I-I-I love it (fuel my fire)

To me it's just another log in the flame

I-I-I think I love it (fuel my fire)

And I can always count on you, it's a guarantee

I-I-I love it (fuel my fire)

My motivation, I get it from my enemies (fuel my fire) [Verse 2]

You don't know me (but you never try)

Defend/defame? me (and did it/a devil? with a smile)

I don't mean with your corruption (fuel my fire)

Go 'head and judge me, I know that you love me

You're stained with my name in your mouth

There's something about me that you can't take

You can't figure me out [Hook]

'Cause I'm the flame beneath the smoke (smoke)

And soon enough I'll rise above it all

You try to send me to an early grave

So you assassinate my name, but I won't fall for that [Chorus]

Go 'head and pour the gasoline on my name

I-I-I love it (fuel my fire)

To me it's just another log in the flame

I-I-I think I love it (fuel my fire)

And I can always count on you, it's a guarantee

I-I-I love it (fuel my fire)

My motivation, I get it from my enemies (fuel my fire) [Bridge]

Did you ever think you'd break me down

You just wanna see me burn

But I'll just light up the sky (you? need to know) This time I'll be stronger than ever

'Cause I've got too much to lose
The fight inside of me won't die
'Cause you fueled my fire
Whoa[Chorus]
Go 'head and pour the gasoline on my name
I-I-I love it (fuel my fire)
To me it's just another log in the flame
I-I-I think I love it (fuel my fire)
And I can always count on you, it's a guarantee
I-I-I love it (fuel my fire)
My motivation, I get it from my enemies (my enemies)
(Fuel my fire)Go 'head and pour the gasoline on my name
I think I love it, oh, I think I love it (fuel my fire)
To me it's just another log in the flame
I-I-I think I love it (fuel my fire)
And I can always count on you, it's a guarantee
I-I-I love it (fuel my fire)
My motivation, I get it from my enemies (fuel my fire)
