

Circle Down (Keljet Remix)

Ayer

Bring it down
Don't lose your senses
I'm circling around you now
Pure thirst has got your face all lit up
Play innocent, turn around So take me with you now
It is a chance to prowl
So take me with you now
I'm gonna circle down If you think you're falling
I'm okay with talking
Time for me to circle down
If you think you're falling
I'm okay with talking
Time for me to circle down Babe, you're gonna like this medley
Tear you limb to limb is all
No pressure here to make this easy
This dance it is a hustle now So take me with you now
It is a chance to prowl
So take me with you now
I'm gonna circle down If you think you're falling
I'm okay with talking
Time for me to circle down
If you think you're falling
I'm okay with talking
Time for me to circle down So take me with you now
It is a chance to prowl
So take me with you now
I'm gonna circle down, circle down If you think you're falling
I'm okay with talking
Time for me to circle down
If you think you're falling
I'm okay with talking
Time for me to circle down
