

# No Difference

## Q-Brick

You watch the phone like it was the TV  
If you're all alone, well whose fault can that be  
Your keys, your bag, the car, they're where they always are And the light goes down and all the lights come on  
And they call to me, oh come on come on  
And you don't make, you don't make no difference to me, hey, hey, hey And you look at me and you say what  
you talking about?  
Well me, I'm going out with or without  
I know I don't get far and we're where we always are The light goes down and all the lights come on  
And they call to me, oh come on come on  
And you don't make, you don't make no difference to me, hey, hey, hey You don't make no difference to me,  
hey, hey, hey  
You don't make no difference to me, hey, hey And so you fix a drink 'cause it's time to drown  
And the clock speeds up and then it slows right down  
The life that we have missed I think it still exists, how can you resist? And the light goes down and all the  
streetlights shine  
And they call to me, ooh be dead a long time  
And it makes, it makes a difference to me And the light goes down and all the lights come on  
And they call to me, oh come on, come on  
You can make, you can make a difference to me, hey, hey, hey  
Come on make a difference to me, hey, hey, hey  
Come on make a difference to me, hey, hey, hey
