

Food For the Beast

[Nina Persson](#)

In life time I quite smoking there is a fleshing light
Then came the boys on my radio
Something into the night
Life time I was broken, you know it hits me
Face down on the floor of the discoteque
Guys told the poetry
Its said round, round, round but you purples on baby
So long to the beautiful long landy
Long, long to the beat of this song baby
And your gone, and you gone
All broken hearts baby bring it to me
Feed them together they set themselves free
Lead us some love, well stay on the ...
Food for the beast
Last time I quite shuping
Hell on the piece of me
Bump, bump by the base from the passing park
Give me some clarity
And run, run, run and your key baby
Run, run to the beat of the song baby
And you gonna, gonna you gone
All broken hearts baby bring it to me
All broken hearts baby bring it to me
Feed them together they set themselves free
Lead us some love, well stay on the ...
Food for the beast
All broken hearts baby bring it to me
Feed them together they set themselves free
Lead us some love, well stay on the ...
Food for the beast
All broken hearts baby bring it to me
Feed them together they set themselves free
Lead us some love, well stay on the ...
Food for the beast
