# Strange Land

## Donald Lawrence

Ooo ooo
How can we sing when we're in a strange land?
How can we face adversity?
Oh oh
How can we stand in the midst of trouble when the enemy laughs at our beliefs
Ooo Ooo

Situations in life seem so distressing like a prisoner in chains there's no escape.
There is no way out.
And you wonder if life will ever get better or does trouble live within your fate.

[Chorus]
Won't you take some time to realize that you're on the winning side
We know this life may not be easy
But when you're all alone in your weakness he's strong
So let song ring out let your voice sing it loud If you know that
Christ is singing in you then the song that you sing will never end

If you asking how can we sing when we're in a strange land how can we face adversity
Oh oh
how can we stand in the midst of trouble when the enemy laughs at our beliefs

[Chorus]

Won't you take some time to realize you're his own
that's why he died I know this life may not be easy
But when you're all alone in your weakness he's strong.
So let your song ring out lift your voice and shout it loud
He put joy down in your soul now this sin sick world must know that he lives
Inside you he's always there to guide you when your
When your backs against the wall keep on singing when you have no friends at all
Keep on singing
When your down and can't see your way he'll be there to bring you a brighter day
Keep on singing If you know that Jesus is singing in you the song that you sing will never end.
If you're asking
That's why we sing.
