

So This Is Christmas?

[MxPx](#)

So this is Christmas
But there's no snow outside
It's not the way that I remember
What I think to weigh December white
So this is Christmas
I don't have much word to give
This is Christmas
Find it in your heart to forgive
'Cause this is Christmas time
Rent me for pardon
And I'll make it up to you
'Cause I screwed up so many times
Now my emotions all starts going down
So this is Christmas
I don't have much word to give
This is Christmas
Find it in your heart to forgive
'Cause this is Christmas time
You didn't know me then
But now you know me now
You didn't see me back then
But now you see me now
This is Christmas
I don't have much word to give
This is Christmas
Find it in your heart to forgive
'Cause this is Christmas time
