

# Judith Rules

## I See Stars

You can try to take this from us  
You waste your days away counting numbers  
I will never let this go I won't let this go  
This opportunity to leave my head  
I'd be nothing without this  
We'd be nothing without this  
Waiting for the show  
I'll leave this room with far more hope  
Waiting for the show  
I'll leave this room with far more hope I'll jump until my legs give in  
I'll scream until there's nothing left to say  
The only faith I ever had in me was because you were singing  
Waiting for the show  
I'll leave this room with far more hope This is our life  
We're all kings for now  
And I'm wasting light  
This is our life  
We're all kings for now  
And I'm wasting light I won't let this go  
This opportunity to leave my head  
I'd be nothing without this  
We'd be nothing without this This is our life  
We're all kings for now  
We're all wasting light away  
I won't let you down I'll jump until my legs give in  
I'll scream until there's nothing left to say  
The only faith I ever had in me was because you were singing  
Waiting for the show  
I'll leave this room with far more hope
