Black Country

Black Country Communion

It's cold on the mountain It's cold in the wood My life is a fountain It's all in my bloodI go down to the river I'll never sleep till I'm gone It's cold on the mountain I could not leave you aloneI am a messenger This is my prophecy I'm goin' back To the Black CountryI speak for the million From city to shire We come from the heartland We walk thru the fireWe rise to the measure The line in the sand It's cold on the mountain And this is our landI am a messenger This is my prophecy I'm goin' back To the Black Country
