Patience

Plug In Stereo

i've tried to be patient
but if i keep waiting
will there be anything left for me
i play to grey walls and basements
while they soak all the fame in
but that aint the way that its always gonna beand i cant give up now
ive gone too far down
ive give anything for this
its all i have leftChorus:
if i played it right
i know theres a light
i just gotta keep on going
theres no way of knowing in life
could hit me with a surprise
i dont know whats in store but i want more
i'll go forever and ever and ever
yeah i'll go forever and ever and everfrom my lips to your ears
confessing my fears
cause when you listen im indestructible
from Portland to Paris
i hope that you'll share this with someone on your side of the worldand i cant give up now
ive gone too far down
ive given everything for this
its all i have left[Chorus:]when will my time be
i need you to hear me
when will my time be
i need you to hear me[Chorus:]
ill go forever and ever and ever
yeah i'll go forever and ever and ever
ill go forever and ever and ever ..
