Joyful Reunion

NoMeansNo

I don't buy your explanations
Your short sighted expectations
Stop complaining, I don't care(I told you the way it had to be)
I will fuck with you
If you try to fuck with me
(So don't try it)Look at this face, i'm the one you love
The white light of truth from heaven above
An angel of shit, fuckerIt's no road to ruin
Not a final solution
Just the grand execution
Of our Joyfull ReunionYou squeezed the world in the palm of your hand
But when it lay in pieces
Did you give a damn?
(Why should you?)Don't play dumb and don't ask why
With a blink of my eye you are cut and dried
And hung up -bye, byeIt was here, where did it go
I don't know, I don't know
Anything any moreIn this ball of confusion
Through these painfull convolutions
There's no clear-cut solution
Just a Joyful ReunionWhat are you trying to escape
Your name calls me
Your mirror is my gate
(smash, through the looking glass, fucker)I am your hated enemy
The friend that makes you start again
Just when you thought it was finally the endHit me hard, tear me apart
To rise again is my special art
You can't kill meWith all the things that cut me down
Shake, brake, mutilate - grind me into the ground
I'll grow up again with first rain, just the sameWe will raze the institutions
Make all new resolutions
Rebuild constitution
For that Joyful Reunion
