

# Joyful Reunion

## NoMeansNo

I don't buy your explanations  
Your short sighted expectations  
Stop complaining, I don't care(I told you the way it had to be)  
I will fuck with you  
If you try to fuck with me  
(So don't try it)Look at this face, i'm the one you love  
The white light of truth from heaven above  
An angel of shit, fuckerIt's no road to ruin  
Not a final solution  
Just the grand execution  
Of our Joyfull ReunionYou squeezed the world in the palm of your hand  
But when it lay in pieces  
Did you give a damn?  
(Why should you?)Don't play dumb and don't ask why  
With a blink of my eye you are cut and dried  
And hung up -bye, byeIt was here, where did it go  
I don't know, I don't know  
Anything any moreIn this ball of confusion  
Through these painfull convolutions  
There's no clear-cut solution  
Just a Joyful ReunionWhat are you trying to escape  
Your name calls me  
Your mirror is my gate  
(smash, through the looking glass, fucker)I am your hated enemy  
The friend that makes you start again  
Just when you thought it was finally the endHit me hard, tear me apart  
To rise again is my special art  
You can't kill meWith all the things that cut me down  
Shake, brake, mutilate - grind me into the ground  
I'll grow up again with first rain, just the sameWe will raze the institutions  
Make all new resolutions  
Rebuild constitution  
For that Joyful Reunion
