

Place You Go

John Eddie

If you go crazy i'll follow you
I'll stop you baby before you do
Put your faith in someone who
Wants what's best for you
Oh baby i'll watch out for you

You've got secrets
The scars you hide
And you've got closets with bones inside
Well that's okay babe so do I
I won't criticize
Oh baby i'll just share the ride

There's a place you go
You don't let me know
Somewhere deep inside
Where you run and hide
Could you look and see if there's room for me
Baby let me know where's that place you go

A fragile heart well you held it high
You climbed your stairs so no one tried
There's a box up there full of someone's lies
You put your heart inside
Closed the box and you let it die

There's a place you go
You don't let me know
Somewhere deep inside
Where you run and hide
Could you look and see if there's room for me
Baby let me know where's that place you go
