Little Secrets

Passion Pit

When I came down the dawn poured into me
I shook 'em up, the walls came crumbling
My fists kept trembling with these salty wounds
My stolen gold inside the emperors tombNow painting rainbows on my ugly face
I built this cardboard neighborhoods disgrace
but I ascend and serve my feverish need
Within the confines of such chemistryIt's the way I see
Everything I need
It's the way to beLet this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higherBut I feel alive, I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higherMy face blew up at such a casual sight
This miracle is of ecstatic fright
They'll rush above me to oblivion
Outlining white sidewalks with halogenOh, have you ever felt so goddamn strong
How come it takes some people so damn long
He turned to squeeze the lemon juice to rain
The citrus drawing out the seasons stainsWatch the basin drain
As your life lines wane
And you can't explain
As your friends complainYou've caused all this pain
And you proudly shame
Your whole family's nameLet this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higherBut I feel alive and I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higherMother, I can tell what you've been thinking
Staring at the stars on your ceiling
Thinking once there was a power that you were wielding
And now I've hit the mark, staring at the dark
And I cannot help but ignore the people staring at my scarsLet this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higherBut I feel alive, I feel it in me

Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higherLet this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higherBut I feel alive, I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higher
