

# Little Secrets

## Passion Pit

When I came down the dawn poured into me  
I shook 'em up, the walls came crumbling  
My fists kept trembling with these salty wounds  
My stolen gold inside the emperors tomb Now painting rainbows on my ugly face  
I built this cardboard neighborhoods disgrace  
but I ascend and serve my feverish need  
Within the confines of such chemistry It's the way I see  
Everything I need  
It's the way to be Let this be our little secret  
No one needs to know we're feeling  
Higher and higher and higher  
Higher and higher and higher But I feel alive, I feel it in me  
Up and up I keep on climbing  
Higher and higher and higher  
Higher and higher and higher My face blew up at such a casual sight  
This miracle is of ecstatic fright  
They'll rush above me to oblivion  
Outlining white sidewalks with halogen Oh, have you ever felt so goddamn strong  
How come it takes some people so damn long  
He turned to squeeze the lemon juice to rain  
The citrus drawing out the seasons stains Watch the basin drain  
As your life lines wane  
And you can't explain  
As your friends complain You've caused all this pain  
And you proudly shame  
Your whole family's name Let this be our little secret  
No one needs to know we're feeling  
Higher and higher and higher  
Higher and higher and higher But I feel alive and I feel it in me  
Up and up I keep on climbing  
Higher and higher and higher  
Higher and higher and higher Mother, I can tell what you've been thinking  
Staring at the stars on your ceiling  
Thinking once there was a power that you were wielding  
And now I've hit the mark, staring at the dark  
And I cannot help but ignore the people staring at my scars Let this be our little secret  
No one needs to know we're feeling  
Higher and higher and higher  
Higher and higher and higher But I feel alive, I feel it in me

Up and up I keep on climbing  
Higher and higher and higher  
Higher and higher and higher Let this be our little secret  
No one needs to know we're feeling  
Higher and higher and higher  
Higher and higher and higher But I feel alive, I feel it in me  
Up and up I keep on climbing  
Higher and higher and higher  
Higher and higher and higher
