

Collide

Helalyn Flowers

Where everything is worthless
I'm feeling cold and distant
I saw you trying to protect me
Like a broken gas mask Shaking world - Burning skies Don't you see that I feel alive
Standing on a broken line?
'Cause every time I live in chains
I'm a dead-walking machine
Ready to collide Blow my shadow
Drown in my reflection
Ready to collide and waiting to fall
Wasted time
Is bleeding like an arrow
And is killing you
And is killing you inside So many time awake and
Addicted to disorder Shaking world - Burning skies Don't you see that I feel alive
Standing on a broken line?
'Cause every time I live in chains
I'm a dead-walking machine
ready to collide Blow my shadow
Drown in my reflection
Ready to collide and waiting to fall
Wasted time
is bleeding like an arrow
And is killing you
And this is killing you deep inside
