

Tongue n' Groove

Slaughter

You came to me in twilight
Ya burning right to the core
Baby won't ya turn me on
Let's take a ride across the floor

[Chorus:]

Here I am addicted like an animal in heat
All I really want to do is put my tongue in your groove
Come on baby let me let me
Put my tongue in your groove

Well can you feel it lover
Now you got me locked up in vice
Let me tell ya brother
She took me all the way to paradise

[Chorus:]
