

# Red Room

## Jude

Red room, bed room, clean sheets  
Dark night, star light, hey  
First kiss, near miss, holding breath  
Her tongue, so young death I know this is wrong, I have been silent for too long  
I know this is wrong, I have been silent for too long Mommy, sorry, had no choice  
Daddy and me, hear my voice I know this is wrong, I have been silent for too long  
I know this is wrong, I have been silent for too long Love has so many faces  
I don't know what they all mean  
They take me many places  
But not all of them are clean Day now, I vow  
Never more I will kill, this is war  
This is war, this is war I know this is wrong, I have been silent for too long  
I know this is wrong, I have been silent for too long
