## DJ Rap

See it in your eyes  
Feel it in my head  
Feeding me your pain  
Falling out againSmall strong blow  
Small strong blowSee it in your eyes  
Feel it in my head  
Feeding me your pain  
Falling out againSmall strong blow  
Small strong blowDone the same old route before  
Leading us to angry shores  
Insecurities await  
Confusion hurting us againLet's fight and talk  
That's it, fight and talk  
Let's fight and talk  
That's it, fight and talkYou start to shout  
You give it, bring it out  
We scream and pout  
Reacting, feeling doubtWe're testing weight  
What's it all about?  
It takes the blame  
While we shout it outLet's start again  
And try to talk it out  
Let's fight and talk  
Let's start something elseMeeting on the way  
Excuse this reach in time  
Got sunshine on my mind  
Can finally hear your face in my mindSeen it there before  
If you only knew my mind  
Excuse me perfectly  
My world will reach in time
