Let My Hair Down

Nelly Furtado

I'm Nelly, I'm Nelly, I'm Nelly, I'm Nelly, if you want the video
I'm on your video, if you want the radio, I'm on your radio
Call if you hear me, yo, I'm Nelly, I'm Nelly, I'm Nelly, I'm Nelly
Baby, I wanna let my hair down, baby, I wanna let my hair down
Baby, I wanna let my hair down, bring me something
That'll make me jump around
Let's flow with this, let's get to know with this
Let's hit the show with this, let's fly like a crow with this
Do you wanna be my revue? I could be your star even
Or we could make a little haven, tell me what you're craving
Let's make a dust bowl, we'll hit it like Rose Bowl
I do like sports but I don't like wearing shorts, it's okay
We could do it in the dark, if you got a candle, let's light a spark
Everybody looks good in good lighting, hey we could do it quick
And close our fighting
Baby, I wanna let my hair down, baby, I wanna let my hair down
Baby, I wanna let my hair down, bring me something
That'll make me jump around, baby, I wanna let my hair down
Baby, I wanna let my hair down, baby, I wanna let my hair down
Bring me something that'll make me jump around

Smell it on the mic, feel alright and you can have a bite
But not tonight, you can call me Nico, give me something to eat, oh
I heard you're chickety chic-o, like you're staying the week
Yeah, you like my map, yeah, it's all that, let's start a frat
Gimme, gimme, gimme phat, you know you like vodka
You like the way we rock ya, hey I'm your amour
Come here when I call you something dolly
Baby, I wanna let my hair down, baby, I wanna let my hair down
Baby, I wanna let my hair down, bring me something
That'll make me jump around, baby, I wanna let my hair down
Baby I wanna let my hair down, baby, I wanna let my hair down
Bring me something that'll make me jump around
This is my flow, my hair down, this is my flow, my hair down
This is my flow, my hair down, this is my flow, my hair down
Jumpin' around, this is my flow, this is my flow
Baby, I wanna let my hair down, baby, I wanna let my hair down
Baby, I wanna let my hair down, bring me something
That'll make me jump around, baby, I wanna let my hair down

Baby, I wanna let my hair down, baby, I wanna let my hair down
Bring me something that'll make me jump around
