

Soothe Me

Yuck

Only you know that I was so ashamed
We're playing a game, we are so arranged
Go where I go in this hell life that I know
Seek what I seek, in the peephole look to me
So soothe me, don't use me
I'm not your oxygen
So soothe me, don't use me
I'm not your drug
Babe, I'm tired our love has expired
Babe, I'm tired our love has expired
I give you a change and the back wits of my brain
I give you a change and all you give is pain
So soothe me, don't use me
I'm not your oxygen
(x6) So soothe me, don't use me... So soothe me, don't use me
I'm not your oxygen
(x3) So soothe me, don't use me
I'm not your drug
