

Window

Good Old War

I...

I am so like window in your life

I stay so open

and some days, I'm as close as i can get

When you say I love youThat's right

That's right

I'm gonna stay awake for youMy home, my only way to be alone

My home, so quiet

That noise is like 1,000 flying birds

It's so loud, I'm shut downThat's right

That's right

I'm gonna stay awake for youI...

I tried so hard

I wanted nothing

Some time to think

Some time alone

There's nothing wrong with being so quiet

There's nothing wrong

You're never frightenedThat's right

That's right

I'm gonna stay awake for you
