

# Empty Box

## Sweet Tempest

There's nothing left, to talk about  
You made your choice, and I've made mine  
And into bed and into baths  
We used to share, it's all that I leave, behind

(Chorus)

You won't keep me down  
'Cause you don't know what I've found  
A side of me that you will never know  
In your darkest lie  
When you won't say, it's waste of time  
You could have had me but you just crossed that lie

I used to try  
I used to want  
I used to need, for you to see me  
Outside and into baths  
You always, keep me in  
But time, moves on  
And so do I

(Chorus)

You won't keep me down  
'Cause you don't know what I've found  
A side of me that you will never know  
In your darkest lie  
When you won't say, it's waste of time  
You could have had me but you just crossed that lie

You won't keep me down  
You won't keep me down  
You won't keep me down  
You won't keep me down  
You won't keep me down  
You won't keep me down
