

Take Me to Your Heart (Mark Cyrus Reggae Mix)

Bananarama

Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on I must be dreaming
And my heart can't fight the feeling
'Cos when I saw you
I just knew what I'm missing So how much time will it take
'Til we get to that day
So come on now
Heaven could be waiting Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on Baby, when you hold me
You really got me going
Oh, what you do
You really move me baby So how much time will it take
'Til we get to that day
So come on now
Heaven could be waiting Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on So how much time will it take
'Til we get to that day
So come on now
Heaven could be waiting Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
