

Lookin' for a Good Time

Bret Michaels

Hey, what ya drinking baby? Girl you're beautiful, you're 'bout near perfect
But I bet somebody's already told you that
Name your poison, name your passion
'Cause a boy like me just couldn't help but ask Keep on talking to me baby
I'm hanging on your every word
Keep those drinks a coming
Maybe we'll both get what we deserve How 'bout baby we make a promise
And not promise anything more than one night?
Complicated situations only get worse in the morning light
Hey, I'm just looking for a good time Put in a long hard week doing this 9 to 5
And you're just the girl to get that off my mind
You shouldn't have worn that dress, you shouldn't dance like that
You got this little heart of mine in overdrive I sure love this conversation
The band is good, the music's loud
But would you get the wrong impression
If I called us a cab right now? Oh yeah! How 'bout baby we make a promise
To not promise anything more than one night?
Complicated situations only get worse in the morning light
Hey, I'm just looking for a good time Go ahead and lie to me and pull me close
Tell me that you love me even if you don't
The rule is don't you ever even talk about forever
But you never say never in life! How 'bout baby we make a promise
To not promise anything more than one night?
Complicated situations only get worse in the morning light
Hey, I'm just looking for a good time
Hey, I'm just looking for a good time!
