

Nicest Thing

Example

All I know is that you're so nice
You're the nicest thing I've seen
I wish that we could give it a go
See if we could be something I wish I was your favorite girl
I wish you thought I was the reason
You are in the world I wish my smile was your favorite kinda smile
I wish the way that I dressed
Was your favorite kind of style I wish you couldn't figure me out
But you'd always wanna know what I was about
I wish you'd hold my hand when I was upset
I wish you'd never forget
The look on my face when we first met I wish you had a favorite beauty spot
That you loved secretly
'Cos it was on a hidden bit
That nobody else could see Basically, I wish that you loved me
I wish that you needed me
I wish that you knew when I said two sugars
Actually I meant three I wish that without me your heart would break
Yeah, I wish that without me
You'd be spending the rest of your nights awake I wish that without me you couldn't eat
Yeah, I wish I was the last thing on your mind
Before you went to sleep Look, all I know is that
You're the nicest thing I've ever seen
And I wish we could see if we could be something
Yeah, I wish we could see if we could be something
