

What's the Name of the Game (Remastered)

Ace of Base

What's the name of the game
Age of time
Looking through the windows
It's the age of time
Traveling through the world
Age of time
Leaves no room for longing
For a love like blood in me
A love like blood that never dies
What's the name of the game
Thinking about our story
What's the name of the game
Honey don't you worry
You're the code to my heart
Be my own redeemer
What a combination, baby
I want to be
What's the name of the game
Young at heart
I know what we're needing
But the age of time
Is spreading through the world
God takes shape
Who can run the game now
That the love like blood in me
A love like blood that never dies
What's the name of the game
Thinking about our story
What's the name of the game
Honey don't you worry
You're the code to my heart
Be my own redeemer
What a combination, baby
I want to be
What's the name of the game
What's the name of the game
I stand in the line I do as I'm told
But burning within is you
I follow you today
I follow you today
I follow you
I'm your disciple
A love like blood that never dies
What's the name of the game
Thinking about our story

What's the name of the game
Honey don't you worry
You're the code to my heart
Be my own redeemer
What a combination, baby
I want to be What's the name of the game
Thinking about our story
What's the name of the game
Honey don't you worry
You're the code to my heart
Be my own redeemer
What a combination, baby What's the name of the game
