

Something Wonderful Happens in Summer

[Frank Sinatra](#)

Something wonderful happens in summer
When the sky is a heavenly blue
You fall in love, you fall in love
With someone who loves you too
Something wonderful happens in summer
When the moon makes you feel all aglow
You fall in love, you fall in love
You want the whole world to know
You carve initials on a tree
You kiss and exchange a ring
June and July go by
Your heart sings, "Ting-a-ling-a-ling-a-ling"
Something wonderful happens in summer
And it happens to only a few
But when it does, yes when it does
You'll feel wonderful it happened to you
