

Mile High

Moss

Hook: When I check my fresh, there's nobody fresher than I
5,280 feet in the sky

People outta state see my swag and they wonder why
I'm so fly, so fly, so fly!

I'm Mile High I'ma keep it real, put my city on

Cause a lot of people say they will

But I know they won't, and uh

You can hate me still but

I'm so fly, so fly, so fly!

I'm Mile High Verse 1: They say once you get paid it's considered a profession

And me, myself, I been representing for more than my section

I got that "Mayoral Congression", I work for perfection

So when they push, we push back

Call that forward progression

I gotta keep an eagle eye on the vultures

In order to see me, you gone have to have to widen your focus

The good doctor Moss, says he got the diagnosis

Flow sick like the flu, but I'm immune from prior doses

If they challenge, baby, I accept

Flow crazy plus they say we got the Livest set

See I provide entertainment, they provide the checks

Chauffeur? No sir, my flow deserve a private jet!! Yes! Verse 2: I represent for the team, that's what makes me
boss

And this type of swagger here, can't be bought

We the sh*\$! Where the Charmin boy?

These other MC's? They Angel Soft.

N*ggas step they promotions up and swear they be f*#&king with Moss

Only difference is they can talk about the next mixtape

But they're shows aint never going off

Sorry. I don't mean to be rude

But don't compare me to my food

So they know where we stand

Yes most of the family still ride with the crew

They don't doubt me due to the fact:

I'm getting my cheese like when a mouse makes moves

People tellin' me what I'm bout to do

They say I'm headed to maximum altitude

I been patiently waiting 'til the day that I am King

And now that it's here, I'm fully focused on one thing:

That's put on for my city, consolidate one team
And stay fresher than a confessional
I come clean.
