## Lifer

Take another hit and it makes me big again  
In, out around my head again  
Here and I'm never givin' up  
'Cause I don't wanna leave today  
My situation declines  
The tension rises above  
Everything I see  
Let it go  
(Go, go)  
Let it, let it  
Let it go  
(Go, go)  
You can't have everything now  
One more hit and I forget again  
Now I'm on my back again  
Down and I'm not gettin' up  
'Cause I don't wanna move today  
My motivation declines  
The temperature rises above  
Everything I feel  
Let it go  
(Go, go)  
Let it, let it  
Let it go  
(Go, go)  
You can't have everything  
Let it go  
  
(Go, go)  
Let it, let it  
Let it go  
(Go, go)  
You can't have everything now  
You've seen this happen before  
You know, it's not a mistake  
If you've seen this before you'll see it again  
You fell asleep when I was awake  
You left me blind, left behind  
When all I feel is hate

And all I hate  
All I've hated  
Let it go  
(Go, go)  
Let it, let it  
Let it go  
(Go, go)  
You can't have everything  
Let it go  
(Go, go)  
Let it, let it  
Let it go  
(Go, go)  
You can't have everything now  
You can't have everything now  
You can't
