

# Walls

[Lisa Loeb](#)

I can't tell you how I feel  
but listen in to the radio playing my heart  
sing the words I can't say to you  
the way I've always wanted to I'm scared to tell you how I feel  
I build it up and it's gonna break me  
I don't want to say what's in my head  
I'd tell the truth if I knew you would take me Oh my walls, won't you come down  
don't keep me here locked up forever  
oh my walls, won't you come down  
how will we be together?  
I can't tell you how I feel  
but listen in to the radio playing my heart  
they sing the words that I can't say  
you can turn it up when it feels like I'm far away Oh my walls, won't you come down  
don't keep me locked up forever  
oh my walls, won't you come down  
how will we be together?  
I can't make another mistake  
I know it's right now or never  
oh my walls, if you won't come down  
we'll never be together
