Listen Up

Sham 69

Ebeneezer's out of his head
He takes a walk upstairs to bed
He talks a lot but nothings said
And how do you get your daily bread20 pound for a stereo
How low life can you go
50 pound for a video
Anything else I'll let you knowHe wants to leave Londonium
But his family live on valium
He talks a lot but nothings said
And how do you get your daily bread20 pound for a stereo
How low life can you go
50 pound for a video
Anything else I'll let you knowListen up yeah hear what I say
You'd be dangerous if you had a brain
Well listen up yeah hear what I say
You'd be dangerous if you could explainFrom the animal house to the alien zoo
This techno beat was made for you
You talk a lot but nothings said
And how do you get your daily bread20 pound for a stereo
How low life can you go
50 pound for a video
Anything else I'll let you knowListen up yeah hear what I say
You'd be dangerous if you had a brain
Well listen up yeah hear what I say
You'd be dangerous if you had a brainListen up listen up listen up listen up
Listen up listen up listen up listen upEbeneezers out of his head
He walks upstairs and he's gone to bed
He talks a lot but nothings said
And how do you get your daily bread20 pound for a stereo
How low life can you go
50 pound for a video
Anything else I'll let you knowListen up yeah hear what I say
You'd be dangerous if you had a brain
Well listen up yeah hear what I say
You'd be dangerous if you could explainListen up yeah hear what I say
You'd be dangerous if you had a brain
Well listen up yeah hear what I say
You'd be dangerous if you could explain
Well listen up
