Glory Hole

Consumed

I could fall in love with you
You know that thing that you do
Do it for me now
Do it for me nowI could follow you home
I know I didn't ought to
I know I didn't ought to
But you steal the showI could run away with you
Secrets are safe with you
Do it for me now
You do it for me nowI could follow you home
I know I didn't ought to
I know I didn't ought to
But you steal the showAnd I don't know what I'm doingI could fall in love with you
I'd give it all to you
Take it all until I'm empty
Drain my blood away
Replace it with clay
Mould me from the insideBut I want to
You don't need to
