

# Empty Promises

## Hatebreed

You come to me with salvation  
Saying I must repent  
You offer up your redemption  
A guarantee for a better life in your safe world  
Your illusions are comfort for your conscience  
My sacrifices will be made  
In honor of what is truly sacred  
How can you save me  
When you can't save yourself?  
You can't save yourself  
You can't save yourself
