Sparklegirl

Letters to Cleo

A good girl always knows what's right
Don't forget your keys now don't be lateI'm told that if you last the night
They'll make you drown or float just wait
And be more like a fire than a firefly
'Cause that's the best way to be happySparklegirl, it's clear there's an awful lot to fear, that so up
And I wont try to slow you down, but I gotta get there first or be buriedIt's not like us to say we told you so, not
It's no like life to be that fair
