

black wings

[Inc.](#)

if every life deserves to die
in the dirt but covered in white
but the dirt dont apologize
like her legs when they open wide
like her legs when they open wide
it was black it was never white
it was black it was never whiteblack wings on her back for life
to her skin with the ink and a knife
black wings on her back for life
cause if the pain cant make it rightwe were never blind to it
we were never blind to it
we were never blind to it
we were never blind to itevery dog deserves a fight
but the mouth never got a bite
the birth didnt make a life
to the birth i apologize
to dirt i apologize
it was black it was never white
it was black it was never whiteblack wings on her back for life
to her skin with the ink and a knife
black wings on her back for life
cause if the pain cant make it rightbut it was never to be said
we were never blind to it
it was never to be said
we were never blind to it
we were never blind to it
