End Love

OK Go

Oh sugar, oh sugar Can't you see how hard I'm trying? You know you gotta, you know you gotta Eventually make up your mind.'Cause no one's gonna find you When you're hiding in the dark No one's gonna find you When you're hiding in the darkNo one's gonna find you When you're hiding in the dark No one's gonna find youSo won't you, so won't you talk to me? It's time to decide'Cause no one's gonna save you If you don't swim for the boat No one's gonna save you If you won't take the ropeNo one's gonna find you When you're hiding in the dark No one's gonna find youAnd it's end love, the sky is falling End love, the sky is falling The sky is fallingSo sugar, so sugar Dance with me this one last time We got no reason, we got no reason I can see to hold back tonight'Cause no one's gonna catch you If you can't just let go No one's gonna love you If you can't let love showNo one's gonna find you When you're hiding in the dark No one's gonna find youAnd it's end love and the sky is falling End love and the sky is falling The sky is fallingOh sugar, oh sugar Can't you see how hard I'm trying? You know you gotta, you know you gotta Eventually make up your mindAnd it's end love, the sky is falling End love, the sky is falling The sky is fallingEnd love, the sky is falling End love, the sky is falling End love, the sky is, the sky is falling
