## Digga Digga Song

## **Grade**

Transform, liberate, navigate and regenerate
Re-evaluate the inexcusable judgment
Of all those who surround us
Believe in the deceitYou must believe
Believe in the
You must believe
The sensory deprivation
The seduction to distractTo induce and decay
To induce and decay injected the virus of ignorance
Swallowed through media manipulation
The primal source of intoxicationThe intervention to infect and misdirect us
From the hideous crimes of
The grand deception
