

Let's Go (feat. TobyMac)

Group 1 Crew

ndale! ndale!
It's your boy TobyMac
With the Group 1 Crew
(ndale! ndale!)
What you got, B?
What you got girl? Come on I've heard life is like a box of sweet delights
But in reality, everyday is a fight
So we hold on to the promise that things happen for reasons
We may not understand it but the faith keeps us believin' And I know that we can make it
With faith in our hearts, we can face it
Any mountain that comes our way
We can move There's never a right time
To get up and live life
You only got one try
(ndale! ndale!)
So take what you've been given And make time
To turn someone's day bright
And change how we live life
(ndale! ndale!)
The future's what we make it, so let's go To the beat y'all, so let's go
To the beat y'all, so let's go
One life, one world, y'all
The future's what we make it so let's go To the beat y'all, so let's go
To the beat y'all, so let's go
One life, one world, y'all
The future's what we make it so let's go We in a time when sun don't shine in all places
Typically nose to the grind just to make it
Take the same old, see the same faces
Sayin' it's the hand we've been dealt so we take it But if life's what we make it
I'ma turn the world around, make the poor people famous
Make the B the new A list
Give your Facebook page a new face-lift And every status you post will compliment who you are
The whole world's dark while you shine like a star
Then bring hatred to an end
And watch the honor of our generation come alive again There's never a right time
To get up and live life
You only got one try
(ndale! ndale!)
So take what you've been given And make time

To turn someone's day bright
And change how we live life
(ndale! ndale!)
The future's what we make itIt's the right time
To get up and live life
You only got one try
(ndale! ndale!)
So take what you've been givenAnd make time
To turn someone's day bright
And change how we live life
(ndale! ndale!)
The future's what we make it, so let's goYeah, we got brighter days ahead
I know you got dreams, I believe in them
I know you got problems too, forget them
'Cause life's too short so let's beginYep, see it's all about you
You are the change the world needs to view
'Cause when we change the world changes too
And it's a small world after all'Cause I got something that'll change the world
Moms to the dads, every boy and girl
All I wanna do is show ya how it could be
If ya open up and let your spirit freeSo let's go, let's go, let's go, let's go
Let's go, let's go, let's go
TobyMac, Group 1 CrewThere's never a right time
To get up and live life
You only got one try
(ndale! ndale!)
So take what you've been givenAnd make time
To turn someone's day bright
And change how we live life
(ndale! ndale!)
The future's what we make it, so let's goTo the beat y'all, so let's go
To the beat y'all, so let's go
One life, one world, y'all
The future's what we make it so let's goTo the beat y'all, so let's go
To the beat y'all, so let's go
One life, one world, y'all
The future's what we make it so let's go
