

# Ain't Love Strange (NOW What's Next!)

## Stanaj

Baby, I know I've been here before  
oooh something feels familiar  
Strange that when I gaze at you it's deja-vu  
strange I never thought I'd feel the way I do  
    Like my future and my past  
    got the same name, got the same eyes  
        got the same smile  
    Maybe in a past life you were queen  
        maybe in my past life I was king  
    Maybe we were made eternities ago  
        and maybe we didn't know  
            Ooooohhh  
    Stranger things had happened  
        how strange would it be  
if I told you I believe you were made for me  
    made for me yeah  
    oh made for me yeah  
    oh made for me yeah  
    made for me, made for me  
    Ain't it funny how strangers  
        became less entangled  
And ain't it funny I don't ever wanna let it go  
    Ain't love strange  
Baby, I know I've seen you before  
    It's like staring in a mirror  
    Strange life, we in a twilight  
        but it feels so right  
    Strange that we're never changing  
        but you changed my life  
    Maybe you and I possibly could find  
    that we are divine, heavenly designed  
    Falling for eachother at the same time  
    Calling to eachother, calling to eachother  
    Maybe we were made eternities ago  
        and maybe we didn't know  
    OoooohhhStranger things had happened  
        how strange would it be  
if I told you I believe you were made for me  
    made for me yeah

oh made for me yeah  
oh made for me yeah  
made for me, made for me  
Ain't it funny how strangers  
    became less entangled

And ain't it funny I don't ever wanna let it goBut maybe we are from a place  
    where time and space won't end

    Maybe

    Maybe we came from the stars  
    Maybe an angel flung into my arms  
    Maybe baby

I've seen crazier daysStranger things had happened  
    how strange would it be

    if I told you I believe you were made for me

        made for me yeah  
        oh made for me yeah  
        oh made for me yeah  
        made for me, made for me  
        Ain't it funny how strangers  
            became less entangled

And ain't it funny I don't ever wanna let it go  
    Ain't love strangeOoohhh ain't love strange...
