

Whitehouse

(Hed) P.E.

My niggaz in the whitehouse
We got the Fascists on the run
My niggaz in the whitehouse
Rednecks hide your guns
My niggaz in the whitehouse
The revolution has begun
My niggaz in the whitehouse
Welcome to the future
Don't be such a sore loserBlack in the whitehouse
See the color of change
Things will never be the same
Let the middle class reignNow anything can happen
When a slave becomes the master
Your hierarchy is shattered forever
No turning back nowWelcome to you future
Say goodbye to the pastBlack in the whitehouse
We the people have spoken
The system is badly broken
We will never give upThe corporate control is dyin
The cointelpro is lyin
What you're sellin - We're not buyin
The truth is rising!Welcome to the future don't be such a sore loser!
