

Clouds

Marty Casey & Lovehammers

I am just like you
I wish for more in this life
I need so much more
Lost all hideaway
You were there
To save me from everything
And everyone I could not see So sorry she said
You'll never find out anyhow
So sorry it's over now
Go on back home Falling through your clouds I
Hope you can catch me
Never leave you alone
Falling through you now I
Hope you can catch me Turn my blind eyes blue
One kiss from you
Like white light
Feel you shining through
So much more to see
But you're too scared
Trust me with everything
'Cause I'm the one
I give you strength when you're weak So sorry she said
You'll never find out anyhow
So sorry it's over now
Go on back home Falling through your clouds I
Hope you can catch me
Never leave you alone
Falling through you now I
Hope you can catch me Maybe we can change
You look so scared now
Don't pull the trigger
I'll never be back here
Shoot shoot, away yeah
Shoot shoot, away yeah
Shoot shoot, blow me away Falling through your clouds I
Hope you can catch me
Never leave you alone
Falling through you now I
Hope you can catch me Shoot shoot, away yeah

Shoot shoot, away yeah
Never leave you alone
Shoot shoot, away yeah
Shoot shoot, away yeah Shoot shoot, away yeah
Shoot shoot, away yeah
Never leave you alone
Shoot shoot, away yeah
Shoot shoot, away yeah Never leave you alone
Never leave you alone
Never leave you alone
