

# Parkay

## Nuclear Rabbit

Brace the line between the lowest calories  
Parkay or butter which would you rather have slide  
Down your tube into the bloated gloop of food  
Where all synthetics secrete as a bubbling crude  
The time has come to toss the ol' churner  
And meet new demands for processed butter  
Pleasing the public seems to be the only way  
So lay the red carpet and make way for Parkay  
Imitation butter lies behind a glass door  
Dietary predicament that has stood the test of time  
Sniffer dinky dinkle fondue cheese  
Parkay, the savior, will reside on your pancakes  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
