

# Perennial Mourning

## Sinister

Bodily resignation  
enter the ancient spheres  
dimension beyond all dreams  
where time is forsaken Perennial mourning Eternal benevolent wings  
solemn moaning flock  
through chasms of sin  
falsehood of mankind Perennial mourning Omniscient ancient dome  
beholds the answer to it all Eyes of the ancient slumber  
rabid grotesque tears  
are vanishing in time Simultaneous integration of cocoons  
an obscure mystical appearance  
of unshapen kindred spirits  
like myriad chronic visions Shadows of blood appear  
above the zoetrope chamber  
omnious pylons arise  
enclosing ferocity Perennial mourning Omniscient ancient dome  
beholds the answer to it all Rise from the age of knowledge  
devouring bestial phlegm  
unnular deformed mutation  
chained to the hideous cobwebs  
imperturable consuming souls  
simultaneous deviation into dusk Eyes of the ancient slumber  
rabid grotesque tears  
still vanishing in time Convene incantation spheres  
the infinite powers from beyond  
ancient visions disappear  
beware of the prophecies Universal knowledge  
beyond subconsciousness
