

# Hold On 'Til The Night

Greyson Chance

[Verse 1]

Watching the minute hand  
Frozen solid not moving  
Still we believe we can  
but we're afraid of losing  
Watching from over here  
Its hardly worth competing  
I'm almost out of here  
While breaking a heart that's beating  
Just as I start giving up  
I'm not backing up[Chorus]

Running to the light  
Get out of your own way  
Not afraid to fight  
Believing what you say  
I'll hold on till the night  
Hanging by a thread  
I'm not scared to let go  
Thoughts inside your head  
that creep up to get you  
I believe this is right  
So i'll hold on til the night[Verse 2]

I climbed up on a tree  
To get a new perspective  
If love is worth the time  
the price is being rejected  
just as I start falling down  
I turned this aroundChorus:

Running to the light  
Get out of your own way  
Not afraid to fight  
Believing what you say  
I'll hold on till the night  
Hanging by a thread  
I'm not scared to let go  
Thoughts inside your head  
That creep up to get you  
I believe this is right  
So I'll hold on til the night[Bridge]

Hold on till I'm with you  
all i've got to give you  
all my fears are slowly fading to never know  
yes i start running running running running!!

[Chorus]

run into the light  
get out of your own way  
not afraid to fight  
believe in what you say  
i'll hold on till the night  
(believe that this is the night)  
hanging by a thread  
i'm not scared to let go  
thoughts inside your head  
that creep up to get you  
i believe this is right  
so i'll hold on til the night
