Backyard Joey

Avoid One Thing

backbitting
swinging out of hand
grin and do the best you can
outstanding be the bigger man
back right in
violent till the end
crossed out addresses and names
too bad lost another friendnever been into doing what you say
you'd kick my feet right out from under me
now your gone are you getting what you need
out looking for something that can't be seensit back
fuck no I'll hit the roof
grab hold get a better view
be the one looking down on you
think back
remember when
you were in it to the end
now I could use another friendnever been into doing what you say
you'd kick my feet right out from under me
now your gone are you getting what you need
out looking for something that can't be seen
