Ordinary Song

Brady Harris

What do we have here
A song, a tune, just a melody
Of something I wanna play
Cos it came to me just like yesterday

Ordinary song
Ordinary song
Would you like to singalong
With an ordinary song
This ordinary song

Faraway or near
It's for you and me it's everlasting
It's not so ordinary
It's a song to last through the centuries

Ordinary song
Ordinary song
Would you like to singalong
With an ordinary song
This ordinary song
