

# One More Chance

## Bloc Party.

Give me one more chance, give me one more chance  
Give me one more chance to love you  
Give me one more chance, give me one more chance  
Give me one more chance to love you So open the door and calm down  
Can't you see that I'm trying?  
Don't say another word about the other boy  
Can't you see that I'm dying? This time things will be different and you're gonna see  
This time things will be different and you're gonna see, see  
These hands will come around, you'll love their touch again  
This time things will be different and you're gonna see, see Give me one more chance, give me one more chance  
Give me one more chance to love you  
Give me one more chance, give me one more chance  
Give me one more chance to love you So open the door and calm down  
Can't you see that I'm trying?  
Don't say another word about the other boy  
Can't you see that I'm dying? This time things will be different and you're gonna see  
This time things will be different and you're gonna see, see  
These hands will come around, you'll love their touch again  
This time things will be different and you're gonna see, see One more chance, give me one more chance  
One more chance, give me one more chance  
One more chance, give me one more chance to love you This time things will be different and you're gonna see  
This time things will be different and you're gonna see, see  
These hands will come around, you'll love their touch again  
This time things will be different and you're gonna see, see  
See, see, see, see
